

# CLEAN HARD-TO-REACH PLACES EASILY AND EFFECTIVELY

Need to reach cobwebs in the corner of your lobby ceiling? Or dust the light fixture that hangs high above your shop floor? The new NaceCare High Dusting Kit lets you get to those hard-to-reach places easily – without the need of a ladder. That means, you can dust these tricky areas with just one employee, rather than requiring two or more people to do the job.

With a lightweight design that reduces muscle strain and the ability to fit our entire line of vacuums, canisters and backpacks, the High Dusting Kit is a convenient tool that can save you time and labor as you keep your space clean and dust-free.

The NaceCare High Dusting Kit is the perfect complement to your existing equipment, helping you keep even the highest and hardest-to-reach areas of your space clean and safe.

- 1 operator to clean hard-to-reach areas
- Lightweight and easy-to-use
- Customize for your specific height and task

## THE KIT COMES WITH THE FOLLOWING
