Item code:  
SX115U0

\* Tested by Entostudio S.r.l. Certified Results.

## FEATURES:

- Internal heating element allows steam to heat to 226°F (130°C)
- Special nozzle softens the steam flow to avoid spreading of bedbugs to surrounding areas
- Safe to Use: Steam eliminates the need for chemicals
- Easy to use with minimal training required
- Equipped with 3m steam hose
- Suitable for use with our JS 1600 C steamer at full power

## EFFECTIVENESS

Uses lethal high-temperature steam to eliminate bedbugs and their eggs, ensuring complete and permanent removal.

## ECOLOGY

Unlike chemical pesticides, steam is eco-friendly and leaves no harmful residues, protecting both your guests and the environment.

## VERSATILITY

Our steam generators are safe for a variety of surfaces, from mattresses to sofas, without risking damage to fabrics.

## PREVENTION

Regular use of steam helps prevent the appearance of new bed bugs, while keeping your environment safe and clean

## STEAM CAN BE USED ON ANY SURFACE
