PRODUCT KEY

Lithium-ion

NX300 Batteries have a cycle life of 2,500+ cycles, far exceeding the industry standard. Interchangeable across our NX300 lineup, our “one battery, one charger, one system” solution offers convenience along with performance.

Lithium Phosphate

The NX1K Battery utilizes cutting-edge Lithium Phosphate Technology – the next generation of cleaning power. It delivers over 4,000 charge cycles virtually eliminating battery challenges and providing better return on investment.

Electric Products

Delivering fast, consistent cleaning, our electric products are ideal for those seeking a more economical option. They provide operators with the power and performance needed to get the job done right.

Sustainable Products

Longer-lasting batteries reduce waste and material consumption. Our products, featuring NX1K Lithium Phosphate and Lithium-ion Technology, offer a more sustainable solution by minimizing environmental impact and maximizing efficiency.

High-performing hard floor care solutions

Whether you need to clean a small space quickly or give a larger area a thorough clean, NaceCare's hard floor care products have you covered. Offering a range of electric and battery-operated equipment in multiple sizes, our products are designed for easy operation, storage and transportation, empowering operators to produce exceptional cleaning results every time.

LITHIUM-ION

NX300 BATTERY

The Power that Drives the Productivity

Elevate your cleaning experience with the power of NX300. The NX300 Lithium-ion battery sets the standard in battery performance, unlocking peak productivity for an impressive number of cycles and saving you valuable time and money. Experience a remarkable 60% increase in available energy, the result of extensive research and development into our innovative 30-cell battery design.

HIGHLIGHTS

One Battery Powers All

Utilizing a single battery and charger system that powers all NX300 products, results in reduced costs while maintaining convenience, safety, and power.

1-Hour Fast Charge More Sustainable

Recharge to 80% in just one hour and be ready to go for every product in the NX300 range.

Longevity

Designed for durability, the NX300 is built to last. Engineered and rigorously tested for longevity, it delivers over 2,500 charge cycles, equivalent to 10 years of cleaning, 5 days a week.

Run Time

Each product in the NX300 range is engineered to optimize the NX energy storage to provide the right balance of run time and power for every cleaning task.

ONE HOUR FAST CHARGE
2,500+ CHARGE CYCLES

LITHIUM PHOSPHATE

NX1K BATTERY

Fast Charge, Long-Life, Flexible Power

Investing in Lithium Phosphate, as opposed to routinely replacing batteries and incurring maintenance costs, ensures a positive return on investment throughout the NX1K range. With extended run time, faster and flexible charging, and long-lasting power, you can achieve professional results and reliability.

The utilization of the latest Lithium Phosphate Technology enables the NX1K to deliver over 4,000 charge cycles, making it one of the safest and most sustainable battery platforms available in the market. This not only ensures economic benefits but also contributes to environmental sustainability.

10X LONGER

RUN TIME

Up to 80 mins

HIGHLIGHTS

- Long-lasting battery: The NX300 battery comes with a 4-year warranty* and has a cycle life of 2,500 cycles, equivalent to 10 years of cleaning, 5 days a week. This surpasses the industry standard of 1,000 cycles, or 4 years of cleaning, 5 days a week.
- Reduce water usage: Counter rotating brushes allow you to use less water – and therefore less chemicals.
- Clean 3 times faster than a mop: Coverage is 7,320 sq. ft./ tank (34 minutes).
- Charge on the go: Battery is 80% charged in 1-hour, 100% charged in . With an additional NX300 battery and 80-minute run time, you can effectively run the 244NX continuously by simply changing the battery.
- The 'Park-Up' feature allows users to quickly 'park' the 244NX to move obstacles or carry out other cleaning tasks.

NX300

NUC 244NX

Ultra-Compact Battery Scrubber

Easy to Use

Simple to set up and easy to use.

Easily Removable Tanks

Fast emptying, filling, and cleaning.

Centrifugal Water Delivery

The direct water feed to the center of the brushes distributes solution evenly and consistently across the cleaning area, delivering the best in class water efficiency.

Fully Adjustable Handle

Find the perfect working position with fully adjustable handle.

Foot-operated Floor Tool

Eliminates frequent bending to engage deck and squeegee.

2,500 Charge Cycles

Lithium-ion battery delivers long-lasting power and performance: equivalent to 10 years of cleaning, 5 days a week.

TGB 516NX Compact Battery Scrubber

NX300

TGB 516NX

Compact Battery Scrubber

Get all the run time you need in this battery scrubber. The TGB 516NX provides greater productivity versus other compact scrubbers thanks to its large tank capacity and long-life battery. NX300 batteries are interchangeable with your other NaceCare NX300 products.

HIGHLIGHTS

- Extended run time: The TBL 1120/50 comes with one NX1K battery for two hours of continuous run time. The TBL 1120/100 model adds an additional battery to increase run time to 3 hours and 50 minutes.
- Long-lasting battery: NX1K batteries have a cycle life of 4,000+ cycles, equivalent to 15 years of cleaning, 5 days a week.
- Completely maintenance-free battery: For longer shelf life and no-hassle maintenance.
- Easily clean or change pad or brush: With the patented flip-up and locking brush deck.
- Cost-saving performance: No actuator motors to repair, leading to better reliability.
- Less stress on the operator: Fully adjustable handle is ergonomically designed for comfort and maneuverability.
- Set water flow in advance: Supervisor can set the water flow for the operator so the right amount of water is used.
- Hospital quiet: At 67 dB(A)

TBL 1120/50 Battery Walk-Behind Scrubber

NX1K
TBL 1620/50
 Battery Walk-Behind Scrubber

This brush drive battery scrubber achieves better productivity compared to more costly machines and comes at a lower price point than traditional traction drive units. Outfitted with the power and performance of the NX1K battery system, the TBL 1620/50 delivers powerful cleaning results with maximum convenience.

Cleaning Path	20"
Pad or Brush	20"
Working Capacity	22,000 sq. ft./hr

NX1K

CRL 2128/50T**Compact Battery Ride-on Scrubber**

Experience the productivity of a large machine with the maneuverability of a walk-behind scrubber, delivering versatility and enhanced productivity. With a cutting-edge NX1K battery and fast charging technology, the CRL 2128/50T cleans up to 65,000 sq. ft. per charge, and the 100T model cleans up to 130,000 sq. ft. per charge.

Cleaning Path	28"
Pad or Brush	(2x) 14"
Working Capacity	43,300 sq. ft./hr
Run Time	1 hr 40 mins
Charge Time	2.5 hrs
Solution/Recovery Tank	21 gal.
Battery	1 x NX1K Lithium Phosphate
Brush Speed	150 rpm
Brush Pressure	70 lbs
Weight (with batteries)	357 lbs
Dimensions (L x W x H)	50" x 30" x 47"

**HIGHLIGHTS**

- Extended run time: The CRL 2128/50T is equipped with one NX1K battery for 1-hour and 40 minutes of continuous run time. The CRL 2128/100T model comes with an additional battery for 3 hours and 10 minutes of run time.
- Long-lasting battery: NX1K batteries have a cycle life of 4,000+ cycles, equivalent to 15 years of cleaning, 5 days a week.
- Completely maintenance-free battery: For longer shelf life and no-hassle maintenance.
- Productivity in a compact design: 21-gallon tanks and 28" cleaning path.
- Rear-wheel drive system: Allows for ramp climbing up to 11 percent and prevents drive slippage associated with front-wheel drive machines.
- Hospital quiet: At 65 dB(A).

NX1K

TVL 850/150T**Battery Ride-on Scrubber****Intuitive Controls**

Easy to use control panel for simple operation. Includes emergency stop button.

**Obstacle Protector**

Moves obstacles out of the way to protect the drive wheel from damage.

**Seat Safety Sensor**

Machine will not operate when seat sensor detects that operator is not seated.

Safety Light and Reverse Signal

Warning light displays as soon as the machine is turned on and is in motion. Audible reverse signal ensures safety when reversing.

**4,000+ Charge Cycles**

Experience long run times with Lithium Phosphate batteries: equivalent to 15 years of cleaning, 5 days a week.

**Squeegee Protection**

Squeegee must be in the up position when reversing to protect the squeegee and hoses from damage.

**Easy Path Adjustment**

The gull wing doors easily adjust the cleaning path from 26" to 34". With a spring-loaded brush design, the scrub deck collapses upon contact with obstructions like columns or doorways, without damaging obstruction or machine.

**CLEANING PATH**

SUSTAINABLE COMMITMENT

Sustainability at NaceCare: Committed to a Better Future

Innovating for a Sustainable Tomorrow

In today's dynamic world, we have a unique opportunity to address energy and resource challenges with innovative solutions. At NaceCare, we recognize our responsibility to respond to these challenges with commitment and innovation.

We are dedicated to delivering high-quality, cost-effective cleaning solutions designed to last. Our products not only enhance cleanliness and safety but also contribute to a healthier living, working, and everyday environment for all.

Our Commitment to Sustainability is Reflected in Our Product Lineup

Resource Conservation

Our product lineup includes options that focus on conserving resources, such as water-saving technologies and energy-efficient cleaning solutions.

Durability and Reliability

We provide reliable, serviceable products built to last, resulting in longer lifespans, less frequent replacements, and minimized waste.

Customer Support and Training

We offer comprehensive training and support to help customers maintain and optimize their equipment. Proper maintenance extends product lifespan, reducing the need for premature replacements and further minimizing environmental impact.

Why Sustainability Matters

Sustainability is crucial for preserving the health of our planet and ensuring the well-being of current and future generations. By choosing NaceCare products, you contribute to reducing pollution and conserving water and energy.

Together, we can create a more sustainable future, one that protects our environment and supports the needs of generations to come.

Building a Resilient and Sustainable Future Together
